Arrow Global Group

Established in 2005, Arrow Global is a European investor and alternative asset manager specialising in credit and real estate. We identify, acquire, and manage secured and unsecured loan and real estate portfolios from and on behalf of financial institutions, such as banks, institutional fund investors and specialist lenders.

We play an active role in helping financial institutions reduce their balance sheets and recapitalise in order to increase mainstream lending. By purchasing and managing non-performing loans and other non-core assets, we provide valuable capital and expertise to a growing European market. We are a regulated business in all five of our European markets.

We invest in this asset class through our fund management business as well as directly, and also generate revenues from managing and servicing assets on behalf of third parties.

Arrow's Fund Management Business has total FUM of €4.5 billion (as at Q4 2021).
