Arrow Global Group

Arrow Global is a leading vertically integrated alternative asset manager specialising in European credit and real estate.

Founded in 2005, we own 19 best-in-class asset management and servicing platforms which allows us to enhance operational efficiencies and maximise the value of underlying assets which in turn allows us to

have a disciplined investment approach, underwriting insight and proprietary dealflow. This vertically integrated advantage allows us to create sustainable value throughout market cycles across a range of alternative asset classes including Real Estate, Direct Lending and Opportunistic Credit.

Our strong track record has seen us invest more than €8 billion over the last 17 years across a broad range of investment opportunities, predominantly real estate asset backed, and we manage c.€80 billion of third-party AUM using multiple key European regulatory licences.

We operate across five European geographies with headquarters in London, and a further 12 offices including Milan, Rome, Lisbon, Porto, Amersfoort, Luxembourg, Dublin, Manchester, and Leeds.
