Arrow Global is a leading European vertically integrated alternative asset manager specialising in European private credit and real estate.

Founded in 2005, we own 21 best-in-class asset management and servicing platforms which enhance operational efficiencies and maximise the value of underlying assets through disciplined investment approach, underwriting insight and proprietary dealflow. This vertically integrated advantage allows us

to create sustainable value throughout market cycles across a range of alternative asset classes, including opportunistic credit, real estate lending and real estate equity.

With the added benefit of key European regulatory licenses, we service approximately €80 billion of third-party AUM. Our strong track record, predominantly with real estate asset-backed investments, spans a broad range of opportunities and has resulted in more than €10 billion being invested over the last 20 years.

We operate across six European geographies with headquarters in London, and have a further 15 offices including Milan, Rome, Lisbon, Porto, Madrid, Amersfoort, Amsterdam, Luxembourg, Dublin, Manchester, Leeds, and Jersey.
